TERMINAL CLAMP LIFTER

Guaranteed to Lift the Most Badly Corroded Clamps

This super-strong tool grips below the clamp, if there is room — or else the sharp points of the jaws engage the sides of the clamp. (See illustration) Either way, the harder you pull — the tighter it grips. It removes the most badly corroded clamp quickly, efficiently, effortlessly . . . without danger of damaging battery.

BLUE BIRD DROP FORGED, ALLOY STEEL
BATTERY PLIERS

The only complete line of battery pliers

No. 11 HEX NUT PLIER and POST CLEANER

A self-locking battery plier that will not slip! It has amazing leverage and strength; yet there is no strain on the rivet. End clearance eliminates cell cover breakage. This tool can also be used as a general purpose nut wrench ideal for brake nut adjusting.

STOCK NO. 11 LENGTH: 7½ In. WEIGHT: 8 Oz.

No. 25 ANGLE-NOSE BATTERY PLIER

Designed for positive-grip on terminal nuts. The streamlined, very thin nose provides greater surface contact, better grip, and more leverage even in the tightest spots. Light and durable.

STOCK NO. 25 LENGTH: 7¼ In. WEIGHT: 7½ Oz.

No. 14 WRENCH-GRIP BATTERY PLIER

A powerful, self-gripping battery plier that grips tight to hex, square or round parts. Thin, tapered nose permits access to out-of-the-way places. A general purpose plier with many uses.

STOCK NO. 14 LENGTH: 7½ In. WEIGHT: 7 Oz.

No. 52 SUPER-GRIP BATTERY PLIER

Maintains its own grip with a very light pressure holding the jaws in contact. Unique design eliminates all strain on the rivet.

STOCK NO. 52 LENGTH: 7½ In. WEIGHT: 7 Oz.
